Thank You Larry . . .

In the past few years, GCGS has been fortunate to have editors dedicated to researching and putting into print Guilford County's genealogical history.

Larry Cates, of the High Point Library, continues that dedication digging into old paper records assisting others doing family genealogy research.

Larry's long hours of work, extracting hard to find records, are evident by the quality of the three 2017 journals GCGS members have received. We are fortunate in that Larry is willing to transcribe court records and edit our 2018 Guilford Genealogist, another example of his work. Thank you, Larry, for finding the records we could not.

Member List of Researched Names

Any member interested in GCGS keeping your researched family names on file, please email or mail a request to GCGS. We would like to see if there is enough interest to have an occasional list of the member's name and families researched in our newsletter. No contact information will be printed in the newsletter but will connect a member inquiry to a listed member.
